GOLF COURSE UPDATE

Dear Members,

As the golf season winds down, our Greens Staff is already hard at work preparing for 2027!

Tee Renovations: We completed renovations to 12 tees this fall, along with expansions to several existing tees. Despite weather-related delays, the new tees are establishing well and are expected to be ready for play early next season.

Drainage & Course Improvements: Following an exceptionally wet August and September, several drainage and turf repairs are planned before winter. We'll also be completing tree work to improve sunlight exposure around Greens 3, 4, and 11, based on recommendations from recent USGA evaluations.

Looking Ahead: Our focus for 2027 remains on healthier greens and firmer, faster playing conditions. While excessive rainfall presented significant challenges this season, we're encouraged by the overall health of the course and the progress made.

Thank you to our members for your patience and understanding throughout the challenging weather conditions. Every maintenance decision has been made with the long-term health of the course in mind.
